### Adopting a Dolphin

At school the children had a presentation from the Whale and Dolphin Conservation and asked if we could adopt a dolphin for the club.

They mind mapped how we could raise funds to raise the £32.50 needed and chose the most popular, which were baking and selling cards to parents. We haven't decided which dolphin to adopt yet but we have photos of all the dolphins and will have a vote once we have raised the adoption fee.

Their first project was to make a gingerbread family each to sell. We made gingerbread families every day that week so that all children got a chance to participate.

Hectic week but the results were worth it and here are some of the gingerbread families.

We sold all our Gingerbread families and raised £19 in one week.

Thank you to everyone that supported the children. We are now about to start making Christmas cards and later in December we will make gingerbread reindeer and see if we can reach our target before Christmas.

Hopefully next year we will be down on the beach watching our adopted dolphin playing in the Cromarty Firth.
