WHAT IS IT?

The Scottish Children's Reporter Administration has commissioned Who Cares? Scotland to look into privacy and confidentiality in children's panels. We want to:

- understand how privacy and confidentiality impact on children's, young people's and their parents' and carers' participation in children's panels,
- explore the relationship between privacy and confidentiality in children's panels and advocacy support,
- find out how to improve communication with children and young people.

WHY?

Anecdotally, we hear how privacy and confidentiality are crucial to building trusting and authentic relationships. It is evident that what happens to information and who it is shared with before, during and after panels causes anxiety. That is why we want to understand barriers within the children's panels, and identify improvements which could help to make sure that all involved have confidence and trust in a system which can make life-changing decisions on their behalf.

WHO?

Whether you have attended a children's hearing as a **child, young person or a parent, carer or foster carer**, we need to hear from you.

HOW?

You can share your views by completing an anonymous survey, talk to us individually or take part in group workshops in Dundee, Edinburgh, Glasgow or Inverness. Simply scan the QR code or type in the website address to decide how you wish to contribute to this study.
