

TRACC UPDTAES.....

In the setting...The children have been setting themselves throwing challenges. Setting up boxes, making their own balls and getting points for shots on target. Child led fun....

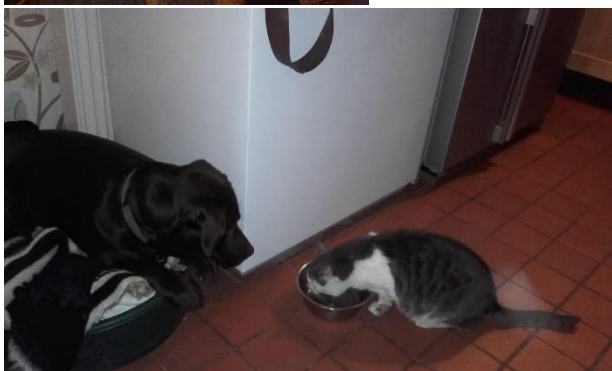

We are still unsure how many points you get for a child in a box

Meanwhile at Becky's....

Who's sleeping in my chair!!! Introducing Hamish, our old aged cat who we love to pieces but he is a very grumpy old man. As you are now aware the adults don't run this home but neither do Hector, Hugo and Henry. Hamish is totally in charge. When he enters the room the dogs move like the parting of the red seas. He demands food and attention and due to sharp claws gets it. Henry still tries but is fast learning you can't win.

Okay you can taste my food!!!!

MUM...he is in my bed

It's all mine

Compromising!!

He should be noted Hamish has three beds dotted around the house!
