

Welcome Back

Welcome back to all returning and new children. We have been very busy since we have returned after the summer holidays the children have all settled in well and are following our nursery routines. We have been exploring the community and lots of outdoor play at willows woods

On our walks the children have been discussing how the bees collect pollen and we have learnt lots of new information about the different types of bees and how honey is made. We have been making our own bees and learning about the body parts. We looked at some real honey- comb and tried some different flavours of honey and discussed that different flavours are made from different flowers.

The children also shared what they thought about the honey some comments where “it’s sticky””

“It smells nice “

“I've had honey- comb before”

“Is this made from sugar”

“I really like the honey it tastes good”

“I can see circles in the honey- comb”

Let us know if your children share what they have learned at home
